

SYSTEK Online Training Webinars – Sept. thru Oct. 2010

Four hour webinar - Registration: US\$300

Early bird 10% discount (One week prior)

1. Gas Pipeline Hydraulics	Sept 27 & Oct 18, 2010	8:00 AM to 12:00 AM (PST)
2. Liquid Pipeline Hydraulics	Sept 28 & Oct 19, 2010	9:00 PM to 1:00 PM (PST)
3. Centrifugal Pumps	Sept 29 & Oct 22, 2010	10:00 AM to 2:00 PM (PST)

The four hour webinar will cover basic pipeline hydraulics and pumps/compressor stations. Liquid/gas properties, Reynolds number, pressure drop equations, and pipe MAOP will be reviewed. Main features of the software LIQ THERM/GASMOD will be explained and sample case studies modeled. Intended for new and current users of the software as well as those considering evaluation/purchase of the software. Includes Q&A session.

Eight hour webinar - Registration: US\$500

Early bird 10% discount (One week prior)

1. Gas Pipeline Hydraulics	Sept 21 & Oct 1, 2010	7:00 AM to 3:00 PM (PST)
2. Liquid Pipeline Hydraulics	Sept 22 & Oct 5, 2010	7:00 AM to 3:00 PM (PST)
3. Centrifugal Pumps	Sept 24 & Oct 29, 2010	7:00 AM to 3:00 PM (PST)

The eight hour webinar will cover basic pipeline hydraulics and in-depth use of LIQ THERM or GASMOD software. Various features of the software will be discussed in detail and sample case studies modeled. Intended for current users of LIQ THERM or GASMOD software as well as those considering evaluation/purchase of the software. All attendees of the 8 hr webinar will receive a 30-day license for LIQ THERM or GASMOD software. Includes Q&A session.

Attendance will be limited to 12 participants at each webinar. You will need a broadband connection. We use Citrix GoToMeeting. To register, call with a credit card or email/fax us your information. Discount available for multiple attendees from the same company. We welcome suggestions for additional topics and features for improvement of the webinars.

Customized webinars available to suit your schedule. Minimum 6 attendees per Company. Call to schedule a custom webinar.
